

NURSE NAVIGATORS, CENTER FOR CANCER CARE

The Center for Cancer Care at Exeter Hospital provides comprehensive, compassionate care for a wide range of cancers and blood disorders. We offer radiation oncology, medical oncology and hematology, surgical oncology, integrative oncology, genetic testing and clinical trials. Our multidisciplinary clinics, patient navigators and second opinion clinics provide you with unique services and conveniences. Our relationship with the Massachusetts General Hospital Cancer Center brings leading medical and radiation oncologists to work onsite at Exeter Hospital, providing exceptional care close to home. Patients also have access to a wide range of Mass General specialists if necessary.

The cancer treatment process can be emotionally overwhelming. Our nurse navigators guide patients through the journey from diagnosis through survivorship, step-by-step. Here are some of the services they provide:

- Help patients understand their diagnosis
- Review treatment options as presented by physicians
- Review any appropriate clinical trials
- Connect patients with providers and specialists as needed
- Provide information on all support resources available
- Answer patients' questions
- Assist with coordinating appropriate referrals such as genetics consultations, second opinions, and access to special services with Mass General
- Coordinate multidisciplinary clinics

For more information about our nurse navigators or other oncology services, please call the Center for Cancer Care at 866-9-EXETER (866-939-3837) or visit exeterhospital.com/cancer.
