PRACTICAL AND EMOTIONAL SUPPORT IN A CONFIDENTIAL SETTING

Ostomy patients deal with alterations in body function that require both physical and psychosocial adaptation.

You are not alone. The Center for Wound Healing at Exeter Hospital can help. Our board certified Wound, Ostomy and Continence Nurse (WOCN) is here to offer valuable advice, resources and emotional support.

OSTOMY SUPPORT GROUP

People with colostomies, urostomies and ileostomies, close friends and families are invited to attend these informative sessions.

An Exeter Hospital Ostomy and Continence Nurse will facilitate the meeting. In addition, guest speakers present life-enriching information on a diverse range of topics.

For more information or to register call 603-580-6668.
